

FOR IMMEDIATE RELEASE

Join Hopkins at the NATM Tradeshow in New Orleans

Emporia, KS, February 9, 2015 – Hopkins announces that they will be attending the NATM Tradeshow in New Orleans February 12 and 13. The National Association of Trailer Manufacturers is the voice of trailer manufacturers and suppliers in the areas of trailer safety regulations. NATM will open its doors from 1:30 P.M. to 6:00 P.M. on Thursday February 12, 2015 and 8:00 A.M. to Noon on the 13th at the Ernest N. Morial Convention Center.

Hopkins continues to bring innovation to the trailer manufacturing landscape. Visit Hopkins at booth #227 and check out the trailer industry standard Engager™ Trailer Break-Away Kit system and the new LED Test Series of trailer side connectors. These connectors illuminate a bright red LED for each wire function eliminating the vehicle and the connection to the trailer as possible electrical problem areas. Also, check out our Plug-In Simple!® Truck Bed/Body Program. This simple system allows for multiple sockets on the back of the tow vehicle by just plugging the harnesses into each other, saving countless labor hours and providing weatherproof connections.

Hopkins is the #1 seller of towing electrical, winter snow and ice products, vehicle cleaning tools, and fluid management tools in North America. You can learn more about Hopkins and all of their leading brands at www.HopkinsMfg.com or www.HopkinsCanada.com.
